## 2. Hazard(s) identification

| Physical hazards | Not classified. |
| :---: | :---: |
| Health hazards | Serious eye damage/eye irritation Category 2 |
|  | Sensitization, skin Category 1 |
|  | Specific target organ toxicity, repeated $\quad$ Category 2 (Blood) exposure exposure |
| Environmental hazards | Hazardous to the aquatic environment, Category 3 long-term hazard |
| OSHA defined hazards | Not classified. |
| Label elements |  |
| Signal word | Warning |
| Hazard statement | Causes serious eye irritation. May cause an allergic skin reaction. May cause damage to organs (Blood) through prolonged or repeated exposure. Harmful to aquatic life with long lasting effects. |
| Precautionary statement |  |
| Prevention | Wear protective gloves/protective clothing/eye protection/face protection. Do not breathe dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. |
| Response | If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. Get medical advice/attention if you feel unwell. |
| Storage | Not available. |
| Disposal | Dispose of contents/container in accordance with local/regional/national/international regulations. |
| Hazard(s) not otherwise classified (HNOC) | None known. |
| Supplemental information | None. |

 eyelids wide apart. Get medical attention if irritation develops and persists.Rinse mouth thoroughly. Do not induce vomiting. If vomiting occurs, the head should be kept low so that stomach vomit doesn't enter the lungs. Get medical attention.
May cause skin irritation. Severe eye irritation. Dermatitis.

Treat symptomatically.

First aid personnel must be aware of own risk during rescue.

Extinguish with foam, carbon dioxide, dry powder or water fog.
Do not use water jet as an extinguisher, as this will spread the fire.
By heating and fire, harmful vapors/gases may be formed.
Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Use standard firefighting procedures and consider the hazards of other involved materials. Move container from fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out.
Will burn if involved in a fire.

## 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Methods and materials for containment and cleaning up
Environmental precautions

Stay upwind. Eliminate all sources of ignition. Avoid inhalation of vapors and spray mists. Avoid prolonged and repeated contact. Avoid contact with used oils. Wear appropriate personal protective equipment.
Remove sources of ignition. Stop the flow of material, if this is without risk. Absorb spillage with non-combustible, absorbent material. In case of spills, beware of slippery floors and surfaces.
Avoid discharge into drains, water courses or onto the ground. Contact local authorities in case of spillage to drain/aquatic environment.

## 7. Handling and storage

Precautions for safe handling

Conditions for safe storage, including any incompatibilities

Provide adequate ventilation. Avoid inhalation of vapors and spray mists. Avoid prolonged and repeated contact. Avoid contact with used oils. Wear appropriate personal protective equipment. Do not eat, drink or smoke when using the product. Observe good industrial hygiene practices.
Keep away from heat, sparks and open flame. Keep containers tightly closed in a cool, well-ventilated place.

## 8. Exposure controls/personal protection

## Occupational exposure limits

| Biological limit values | No biological exposure limits noted for the ingredient(s). |
| :---: | :---: |
| Appropriate engineering controls | Provide adequate ventilation and minimize the risk of inhalation of vapors and oil mist. |
| Individual protection measures, such as personal protective equipment |  |
| Eye/face protection | Risk of splashes: Wear approved safety goggles. |
| Skin protection |  |
| Hand protection | Wear protective gloves. Nitrile gloves are recommended. Glove thickness approx $>0.3 \mathrm{~mm}$. Frequent change is advisable. Suitable gloves can be recommended by the glove supplier. |
| Skin protection |  |
| Other | Wear appropriate clothing to prevent repeated or prolonged skin contact. |
| Respiratory protection | In case of inadequate ventilation, use suitable respiratory equipment with gas filter for organic gas. |
| Thermal hazards | When material is heated, wear gloves to protect against thermal burns. |
| General hygiene considerations | Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. |

Mobility in general The product is insoluble in water and will spread on water surfaces.
Other adverse effects Not available.

## 13. Disposal considerations

Disposal instructions
Hazardous waste code
Waste from residues / unused products
Contaminated packaging

Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Not regulated.
Dispose of in accordance with local regulations. Do not discharge into drains, water courses or onto the ground.
Since emptied containers retain product residue, follow label warnings even after container is emptied.

## 14. Transport information

DOT
Not regulated as dangerous goods.
IATA
Not regulated as dangerous goods.

## IMDG

Not regulated as dangerous goods.
Transport in bulk according to Not available.
Annex II of MARPOL 73/78 and the IBC Code

## 15. Regulatory information

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.
TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)
